These are high quality refurbished computers: All are in full working condition with no bad screen pixels but some signs of wear since they are used. All computers are thoroughly tested and have a very low failure rate. We provide 30 day warranty serviceable by appointment only at our Washington DC Office located at 18th and M Street NW. The warranty does not cover physical damage, water damage or mis-configured software caused by the recipient, viruses, or training.

How To Order.   Computers are shipped directly from our factory to you. To place an order, email info@wildtech.org identifying the computer above you want, your shipping address and phone number. We only have what is listed, limit one per person. Non-Profits and schools may order more than one since they serve many people. We will then reply back if the computer is still available. If it is available we will reserve it for you and provide you the approximate USPS Priority Mail shipping date. Schools and non-profits ordering more than 10 get free delivery in the DMV. Once it is ready, we will email you a PayPal invoice that you can pay by credit card or PayPal. Once paid, we will ship within two business days.
